	Total		9,179	1,398

Manitoba's total population was estimated at 1,193,566 persons as of January 1, 2008, up 3,166 persons from the October 1, 2007 estimate. Population growth continues on an annual basis, with Manitoba's increase since January 1, 2007 estimated at 13,087 persons, or 1.11%. Manitoba's annual growth of 13,087 persons is the best since the January 1, 1982 to December 31, 1982 period, when it was 13,626 persons. A large portion of Manitoba's estimated population gain of 13,087 persons over the past 12 months was the result of immigration (10,947 persons). The immigration flow of 10,947 persons from January 1, 2001 to December 31, 2007 is the best since at least the January 1, 1972 to December 31, 1972 period.

We recorded an estimated net loss of 1,390 persons to other provinces through interprovincial migration in 2007, an improvement of 6,268 persons from the net loss of 7,658 persons in 2006. In 2007, Manitoba gained population on a net basis chiefly from Ontario (260), Quebec (222), New Brunswick (124), and Newfoundland (53), while most of the losses were to British Columbia (-1,063) and Alberta (-905).

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement were combined with interprovincial migration, Manitoba recorded an overall net migration gain of 9,179 persons in 2007. This net gain of 9,179 persons marked an improvement of 7,781 persons from the net migration gain of 1,398 persons in 2006. This is more than a six-fold increase.

Net international migration for 2007 was 9,170 persons, up from 8,285 persons in 2006. This improvement is due to the increase in immigration that went from 10,047 persons in 2006 to 10,947 persons in 2007.
